Bring classroom instruction and shop activities together with Electude and MotoLogic's Repair and Diagnostics Data

Electude, creator of the World's leading automotive e-learning solution, and MotoLogic, Advance Auto Parts' provider of online automotive repair and diagnostic data, have joined forces to bring you and your students the best of both worlds with their bundled products. You can now access the complete MotoLogic repair and diagnostic data from within Electude. The convenience of single-sign on and the ability to refer to real, vehicle-specific data while completing shop work and using Electude's lab tasks is now just a click away.

Unlike other online repair and diagnostic data providers, Electude and MotoLogic provide access from Electude to MotoLogic with a simple link – your students will be able to do homework activities using MotoLogic or perform shop lab tasks using any device, anywhere, anytime.

---

#### MotoLogic provides you and your students:

- High-quality OE content in original formats with no edits.
- Multiple ways to search – by keyword, vehicle subsystems, or OE table of contents.
- OE and color wiring diagrams -- enhanced aftermarket content with circuit highlighting.
- MOTOR labor times - one click access to labor times and maintenance intervals.

#### You can trust MotoLogic to help your students achieve major learning objectives including:

- Reading schematics
- Navigating workshop information systems
- Diagnostic labs driven by MotoLogic's ultra-fast, easy to use search

**The most current content available:** Electude is updated with new or revised modules on a weekly basis, providing the most complete and current solution for automotive service theory. MotoLogic continuously adds new vehicles, technical service bulletins and recalls.

**Great products at great prices:** ask your Electude sales professional for information about how we make using professional-grade repair and diagnostic information affordable.
